Vocational Nursing Program Demands:

The rigorous coursework and time commitment of the vocational nursing program make it difficult for most students to work more than 16 hours per week. Courses are scheduled seven days per week, usually between the hours of 0600 and 2300. Students must have reliable transportation and, if applicable, dependable child care. Students are responsible for academic supplies, transportation, and living expenses. Students are encouraged to apply for financial aid and/or scholarships through Hartnell College Financial Aid.
